

# MOVING ON UP

ABUS is one of the world's leading manufacturers of industrial crane systems, crane components and electric hoists. As an international company, ABUS stands for the highest quality products and reliable customer service.

Due to expansion of the UK operation, we are looking to fill the following position based at our head office in Yateley in Hampshire:

## Field Service Engineer

Based close to our head office in Yateley in Hampshire and travelling to customers sites, this position includes:

- Service, maintenance and repair of industrial cranes and hoists
- Assistance with installation, testing and commissioning of new systems
- Liaison with customers, contractors and Head Office
- Applicants should have electrical engineering 3 phase experience

This position offers an interesting and varied workload as well as an attractive salary package.

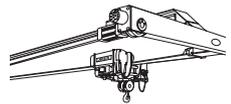

The ideal candidate will be bright and self-motivated and will possess good interpersonal skills.

Applicants must hold a full UK driving licence as a company vehicle will be provided.

If you are interested in this position, please send your full CV indicating current salary details to:
